

SUMMARY

Enthusiastic Software Developer with over 6 years of experience specializing in web application development, particularly in data visualization. Excited to leverage expertise in HTML5, React, JavaScript, and TypeScript to develop and maintain internal web applications for effective data visualization while driving innovation and fostering collaborative environments.

EDUCATION

Visvesvaraya Technological University

Master of Computer Application
2014-2017

Oxford Collage

Bachelor of Computer Application
2011 - 2014

SKILLS

- Proficient in HTML5, CSS, JavaScript, React, and TypeScript
- Experienced in building web applications for data visualization
- Strong knowledge of REST API integration and handling complex data structures
- Familiarity with data visualization libraries such as HighCharts
- Expertise in state management using Redux and Context API
- Proficient in version control with Git and CI/CD pipelines
- Understanding of web security practices and clean, maintainable coding practices

LANGUAGES

- English
- Hindi
- Kannada

PROFESSIONAL EXPERIENCE

Software Developer

Publicis Sapient | 2021 - Present

- Lead the development and maintenance of web applications for data visualization, ensuring effective data presentation and user interaction.
- Collaborate closely with cross-functional teams to design and develop future tools and applications, focusing on enhancing data visualization capabilities.
- Utilize HTML5, React, JavaScript, and TypeScript for front-end development, ensuring high-quality code and user-friendly interfaces.
- Design responsive interfaces to ensure compatibility across various devices for seamless user experience.
- Work closely with backend teams for seamless data integration, ensuring efficient data retrieval and manipulation.
- Implement coding best practices, emphasizing performance and security to maintain the integrity and reliability of web applications.

Frontend Developer

Quess Corp | 2021

- Developed and maintained web applications, focusing on data visualization using HTML, CSS, JavaScript, React, and TypeScript.
- Collaborated with backend teams to integrate REST APIs and handle complex data structures effectively, ensuring smooth data flow.
- Implemented responsive design principles, ensuring optimal user experience across various devices and screen sizes.

Software Engineer

Fork Technologies | 2017- 2021

- Contributed to the development of web applications using HTML, CSS, JavaScript, React, and TypeScript, with a focus on data visualization features.
- Worked closely with backend teams to ensure seamless data integration, optimizing application performance and responsiveness.
- Implemented user-friendly interfaces for effective data interaction and presentation, enhancing overall user experience.
